Juniper Networking Virtual Intern

January-march 2024

- Gained hands-on experience in **networking and cloud technologies** through Juniper Academy.
- Completed training on **network infrastructure, routing, switching, and security**.
- Earned **certifications from Juniper Networks, AICTE, and EduSkills** upon successful completion.

PROJECTS

Edu website:

(currently working)

A community-driven platform providing education to people lacking formal access, connecting volunteers and organizations to deliver resources and knowledge. Built with full-stack development and AI/ML, it tracks volunteer efforts and implements a reward system to promote engagement.

Job Search portal:

A web-based platform connecting employers and job seekers for non-technical contract-based jobs with specific durations. Built using HTML,CSS,JavaScript,JSP/Servlets and MySQL, it features job listings, application management, and contract tracking with secure user authentication

ACHIEVEMENTS

- Awarded a **free scholarship** for college through the **ECET examination**.
- Earned the **Elite badge** in the **NPTEL Java exam**, showcasing advanced proficiency in Java programming.
